

LED lighting options - replace your old, incandescent bulbs with brighter, energy efficient LEDs.

These “smart” lights are longer lasting, low maintenance and a “green” solution that are 98% less expensive to run than traditional décor lights.

Our LED bulbs last up to **200,000** hours versus traditional incandescents which last only **2,000** hours.

- Cool to the touch
- All weather durability
- No glass bulbs to break

Themed tree lighting

Make a dramatic statement this year by using our vibrant LED color lights. Brighten up any venue by changing out your existing clear lights to our green, red, blue, multi-color or candle light sets.

Replacement tree lighting

Avoid the headache and cost of replacing lights every year by upgrading to energy efficient warm white LED lights from Becker Group. You will see the difference in your display as well as your program expenses.
